Q1. Which of the following best expresses your view of the proposed Desecration of War Memorials (Prevention) (Scotland) Bill? (Please note, that this question is compulsory.)

Fully supportive

Q2. The proposed Bill aims to improve the protection of war memorials by creating the specific offence of desecration of a war memorial. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively?

Yes, legislation is required

Please explain the reasons for your response, including your view on whether the creation of a specific offence of desecration of a war memorial would be an effective deterrent.

Too many idiots think they can vandalise these memorials and get away with it. The law is too lenient on them as is and this needs to change

Q3. What do you think the definition of a 'war memorial' should be?

Please explain the reasons for your response, including your view on the proposed definitions set out on pages 7 and 8 of the consultation document.

A memorial put in place by the local community to remember those who fell
Or a designated Commonwealth war grave

Q4. Which of the following best expresses your view of the proposal that the level of punishment for the offence of desecration of a war memorial should be subject to a scale which reflects the severity of the offence?

Partially supportive

Please explain the reasons for your response, including your view on first offenders, particularly young people, attending education programmes or community service, the scale of potential fines and prison sentencing options.

Firstly I would have the offenders clean and repair any damage by themselves or from their own pocket prior to any sentence being given. There should be harsher sentences including longer community work for those involved

Q5. In England and Wales, the maximum sentence for desecrating a memorial is 10 years imprisonment. What, in your view, should the maximum sentence be under the proposed legislation for desecrating a war memorial?

Up to 10 years

Please explain the reasons for your response

This allows the judge some leeway but also if the vandalism is caused by a sectarian or racist act then this should carry a stronger sentence

Q6. Which of the following best expresses your view of the proposal that the new offence should be limited to war memorials, as opposed to memorials more generally?

Proposal should be expanded to include all memorials

Q6. Which of the following best expresses your view of the proposal that the new offence should be limited to war memorials, as opposed to memorials more generally?

Please explain the reasons for your response

Our society has become a joke. People take responsibility for their actions this needs to stop. Damaging and kicking over headstones in a cemetery should also carry the same consequences

Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some reduction in costs

Please explain the reasons for your response, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

If we as a society make the offenders pay for the repairs out their own pockets then individuals, businesses will not need to find the money to carry out the repairs.

If an individual cannot afford to pay then they should be given work in the community to pay for the repairs separately for community service.

Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your response and if there are any ways you think the proposal could avoid negative impacts on particular people.

No Response

Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your response, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

Hopefully it starts bringing a bit of respect for society back.

General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

No Response
