Q1. Which of the following best expresses your view of the proposed Desecration of War Memorials (Prevention) (Scotland) Bill? (Please note, that this question is compulsory.)

Fully supportive

Please explain the reasons for your response.

Being an avid supporter of veterans and our serving military forces I think war memorials need to be protected to ensure that they remain intact and anyone causing damage should be dealt with appropriately. This is not like scrawling your name on a school wall or the nearest bus shelter these places

Q1. Which of the following best expresses your view of the proposed Desecration of War Memorials (Prevention) (Scotland) Bill? (Please note, that this question is compulsory.)

remember our local resident who never made it back alive from war situations. Many bodies were never returned and some of those named don't have graves so this is where they are remembered

Q2. The proposed Bill aims to improve the protection of war memorials by creating the specific offence of desecration of a war memorial. Do you think legislation is required, or are there are other ways in which the proposed Bill's aims could be achieved more effectively?

Yes, legislation is required

Please explain the reasons for your response, including your view on whether the creation of a specific offence of desecration of a war memorial would be an effective deterrent.

This shouldn't be treated as any other vandalism this is desecration of our heroes memorial and they should be protected by legislation to give the police powers to charge those doing it with this specific crime

Q3. What do you think the definition of a 'war memorial' should be?

Please explain the reasons for your response, including your view on the proposed definitions set out on pages 7 and 8 of the consultation document.

Anything that is inscribed with the names of those lost due to war while fighting to protect our country

Q4. Which of the following best expresses your view of the proposal that the level of punishment for the offence of desecration of a war memorial should be subject to a scale which reflects the severity of the offence?

Fully supportive

Please explain the reasons for your response, including your view on first offenders, particularly young people, attending education programmes or community service, the scale of potential fines and prison sentencing options.

First offenders should enter an education programme which could include speaking with veterans from Erskine, poppy Scotland, combat stress etc and hear of the horrors they had to go through and they're the lucky ones who came home. Community service to include cleaning up commonwealth war graves and memorias but for serious offence where memorials have been permanently damaged or repeat offenders prison should not be ruled out or set up programmes where they work alongside serving military personnel

Q5. In England and Wales, the maximum sentence for desecrating a memorial is 10 years imprisonment. What, in your view, should the maximum sentence be under the proposed legislation for desecrating a war memorial?

Up to 10 years

Please explain the reasons for your response

This should be a deterrent to anyone not just a slap on the wrist

Q6. Which of the following best expresses your view of the proposal that the new offence should be limited to war memorials, as opposed to memorials more generally?

Proposal should be expanded to include all memorials

Please explain the reasons for your response

Memorials are to remember those who are no longer here and to see any damaged through vandalism and destruction is upsetting for the families who have to see this

Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

a significant reduction in costs

Please explain the reasons for your response, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

There would be less cost involved in cleaning and repairing the damage caused

Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your response and if there are any ways you think the proposal could avoid negative impacts on particular people.

This won't impact any particular group the impact will be to those who cause the damage but seeing those who do this being educated or prosecuted will have a positive impact on the families of those named on the memorials

Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your response, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

This will improve and protect our communities and environment as there will be less damage, less having to use chemicals to clear them up and keep them places people still want to visit to remember

General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

No Response
